Hi Steve,

Yes we usually have certified canines. There are quite a few organizations that can provide them. That said, puppies are always welcome...

Regards,

Tony Honnellio

Steve,

This is great. I hope that you as the lead CISM person set up a location for the dog to socialize. Maybe we need to have some handouts ready for those who stop to visit. This might open the door for CISM deployment. Let me or Tony know what support you need. Thanks

Subject: CISM dog

We have someone who wanted to bring a dog to the RRCC that is in training as a service dog. The dog must socialize with humans for a period to certified as a service dog

Is there a requirement for a dog to be used as a CISM dog to relieve stress. Do they need to be certified in some manner?
